

5001 Letter Protector

Letter Opener

Protect incoming mail and save time with the compact 5001 Letter Protector from Neopost.

Neopost brings worldwide reputation for innovation and reliability to the desk top with the compact, efficient, 5001 Letter Protector. The 5001 can open mail at speeds of up to 300 letters per minute. And where conventional letter openers can damage the contents by cutting, slicing or trimming the edge of the envelope, the 5001 neatly slits one side of the envelope, insuring the contents are left undamaged with no messy paper scraps to clean up.

Versatile, easy to operate, totally reliable, and weighing less than 20 pounds, the Neopost 5001 Letter Protector has a place in every business and every department.

Key Features:

- Opens up to 300 letters per minute
- Protects valuable contents from damage
- Eliminates waste
- Handles mixed mail without presorting
