DS-70

YOUR OFFICE PROFESSIONAL

The easy to use Folder Inserter
for larger office mail runs

WE VALUE YOUR MAIL 

neopost

DS-70

YOUR OFFICE PROFESSIONAL

Do you have limited space in your office or mailroom? Then the quiet DS-70 can help you out. It folds and inserts your mail and has everything you expect from your office equipment: small footprint, low noise, high productivity and maximum reliability. A user-friendly full color touchscreen makes the DS-70 easy to use for everybody in the office.

EVERY KIND OF APPLICATION

Thanks to Neopost's unique flexFeed technology, you can load any document size in each of the 3 feeders. The variety in applications is up to you. Furthermore, you don't need to fan documents before loading.

PROFESSIONAL MAIL PIECE

Collating the documents before folding them is not only faster than collating them in the envelope, it also ensures a perfect presentation and reduces the risk of jams.

POWERFOLD6

With Powerfold6 you can fold up to 6 pages in trifold and up to 8 pages in singlefold. Both crisply and silently.

- EASY TO USE - EASIER THAN A PHOTOCOPIER
- LOAD'N GO - NO OPERATOR TRAINING REQUIRED
- FULL COLOR TOUCHSCREEN TECHNOLOGY
- LOW NOISE LEVEL - FOR ANY ENVIRONMENT
- FULLY ACCESSIBLE - ERGONOMIC DESIGN

FEEDER SWAP

Continuous operation is achieved by cascade feeding. If one feeder runs empty, it can conveniently be reloaded on the fly while another one takes over.

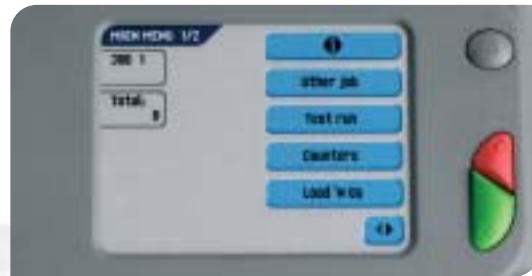

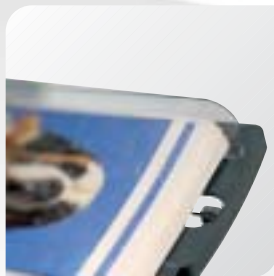

MAXIFEEDER

Load up to 325 BRE's or 1,200 sheets in the optional maxiFeeder.

ENVELOPE OUTPUT OPTIMIZATION

Choose the best way to collect your filled envelopes and optimize space, ergonomics and productivity.

DAILY MAIL

The Daily Mail mode offers the possibility to process sets fed by hand, stapled and unstapled.

SPECIAL FEEDERS

This optional feeder has been specially designed to feed various paper types, including coated material and even small booklets.

LOAD'N GO

Everybody can use the DS-70. No need for skilled operators thanks to load'n Go. Just load documents and envelopes and press the button to Go. The DS-70 will adjust all settings automatically and even save them in the memory for instant recall. Regular jobs? Just run load'n Go and store the settings in one of the 20 available jobs.

- EASY TO USE - EASIER THAN A PHOTOCOPIER**
- LOAD'N GO - NO OPERATOR TRAINING REQUIRED**
- FULL COLOR TOUCHSCREEN TECHNOLOGY**
- LOW NOISE LEVEL - FOR ANY ENVIRONMENT**
- FULLY ACCESSIBLE - ERGONOMIC DESIGN**

YOUR OFFICE PROFESSIONAL

Besides being suitable for the mailroom environment, the DS-70 is developed to fit into any office environment. It is small, very quiet and very efficient.

EXCELLENT ACCESSIBILITY

The DS-70 gives you quick, safe and easy access to the entire paper path. You will quickly be up and running again if there is a break in production.

SECURE PROCESSING

To ensure that every recipient gets the correct mail piece, Neopost's electro-mechanical thickness detection protects against double feeding. It is insensitive to dust, and works with toner or colored paper. The DS-70 measures the thickness of every document from each feeder via secure'n Feed.

OPTICAL MARK RECOGNITION (OMR)

Using a sequence of marks, the DS-70 is able to securely process sets of documents with a varying number of pages to ensure they reach the correct recipient.

PRINTMACHINE SOFTWARE - ENRICH YOUR DOCUMENTS

Neopost's optional PrintMachine software helps you to add OMR-marks to your documents and maximize postal discounting opportunities. A whole new world of mail creation possibilities will be unfolded.

INSERT'N MAIL

Automate your total mail flow by connecting the DS-70 to a Neopost mailing system.

CUSTOMER AND AFTER SALES SERVICE

Neopost ensures the highest quality of customer and after sales service. With dedicated customer and technical support, Neopost quickly responds to any of your questions or needs.

WHY CHOOSE NEOPOST

Neopost is a leading worldwide supplier for mailing and shipping solutions. Our innovative products and services bring simplicity and efficiency to your complete mailing process to make your business run more effectively.
