## THE SCALES THAT HELP YOUR MAILROOM DO MORE, FOR LESS

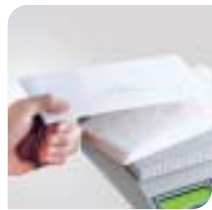

Weigh the letter, check the rate chart, set the value, mail the letter – it all takes time, especially when you're dealing with mixed batches of mail. With a Neopost scale, rates are preprogrammed, so the scale tells you the cost and weight at the same time. If connected to a Neopost mailing machine, the value is automatically set, eliminating risks of postage errors.

### CHOOSE YOUR CAPACITY. CUT THE COST OF GUESSWORK.

With 3 different weight capacities, our scales will suit your business, whatever its size. If you already have a mailing machine, a Neopost scale is the ideal add-on, so users don't have to estimate the weight of varied items. With a Neopost scale, there's no more guesswork. You save up to 20% on postage costs by cutting out postage errors.

### UNPARALLELED EASE OF USE

A color-coded keyboard and easy to read display, clearly marked selection keys, clear display messages and multiple function keys – these are the features that make the Neopost scale so easy to use. The scales also store regularly-used class and service combinations, so you can recall them at the touch of a button.

### MULTIPIECE WEIGHING SAVES TIME

When time is really of the essence, you can place a pile of mixed letters or packages on the scale and it will calculate individual rates as each item is taken off the platform. The mailing machine will then automatically apply the correct postage.

### UP TO DATE POSTAGE RATES

Neopost scales are preprogrammed with over 30 different domestic and international postage rates. When rates change, they can easily be updated.

### CONNECT DIRECTLY TO A MAILING MACHINE

Whichever Neopost scale you choose, it integrates seamlessly with a Neopost mailing machine, and then sets the postage value automatically, so you save time and avoid errors.

### WHY CHOOSE NEOPOST

Neopost is a leading worldwide provider for mailing and shipping solutions. Our innovative products and services bring simplicity and efficiency to your complete mailing process to make your business run more effectively.
