

ST77

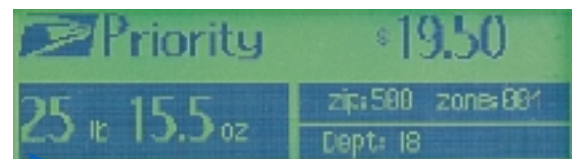

Modular Postal Scale

Get increased accuracy, reliability, and flexibility with state-of-the-art technology from Neopost.

Extend Your Limits

Nobody knows digital scales better than Neopost. Our ST77 high-end scale combines modularity, advanced multi-carrier technology, and optional mail accounting to deliver maximum mailroom efficiency. Available in 30 lb. and 70 lb. versions, the ST77 has a separate weighing platform and command terminal that can be configured any way you like.

The large easy-to-read LCD display shows accurate information for rate, weight, department, and many other user-activated functions.

Multi-Carrier, Multi-Rate

Automation is the key to productivity. The ST77's terminal provides one-key selection of options like:

- FedEx or UPS
- Additional USPS Non/Automation rates
- User-definable "Custom Rates"

Build The System You Need. Get The Features You Want.

The ST77 provides unprecedented flexibility, accuracy, and automation. With the ST77, you get these top-of-the-line features for a low, bottom-line price:

- Auto Set Meter function which saves time and keystrokes.
- Large, operator adjustable LCD Display which reduces glare and speeds operation.
- Color coded keyboard that reduces errors and increases efficiency.
- Postage Meter Interface that sets meter or automatically prints tape.
- Multiple tape mode for printing multiple postage tapes.
- Optional Multi-piece weighing for faster mixed-mail processing.
- 6 customizable shortcut keys.
- Built-in country names for easy selection of international postal rates.

ST77 Advanced Mail Accounting option utilizes state-of-the-art technology to bring a new level of secure tracking and increased accuracy to your mailroom. The Advanced Mail Accounting option:

- Tracks out-going mail for charge-back to up to 500 departments or clients with an 8 digit numeric ID. In addition, departments can be grouped with 4 digit location numbers.
- Ensures accurate tracking of outgoing mail with department validation. For added security while not processing, simply set system to stand-by mode.
- Sends data to host computer either real time or in batch mode.
- Reallocates postage to the correct department with the Error correct function.
- Allows for additional accounting data to be tracked through the user tracking field.
- Includes 19 standard & 4 customizable reports.
- Makes producing complete financial reports fast and easy with a report printer.
- Offers an add-on "Profit-pro" surcharge option for value-added services, so you can operate as a profit center.

The Advanced Mail Accounting option offers hard copy reports, and mail processing can be further sped up by adding the optional barcode reader.

Neopost features you can see and touch. The color coded keyboard and easy to read display make mailing fast and accurate.

Use the custom rates feature to
program discount carrier rates,
local, or courier rates.

With Neopost Rate Paks™ You Choose Only The Carriers You Use.

Neopost knows the importance of maximizing economy in the mailroom. With the ST77, you can select only the carriers you use and start saving money before you even mail your first package. For easy updating when rates change, Neopost will send you a new Rate Pak™ free of charge if you've chosen our Rate Change Protection™ program.

The Neopost Advantage

As one of the world's largest manufacturers of mailing equipment, Neopost knows what's important in a busy mailroom. That's why we combine the latest technology with time-tested reliability in the ST77.

Like all Neopost Mailroom equipment, the ST77 comes with our exclusive Price Protection Program. It's your guarantee that you won't experience price increases over the life of your contract, and everything is combined into one monthly or quarterly payment.

For more information on how to put the power of digital mail accounting into your mailroom, call Neopost toll-free at **1-800-624-7892**. Or visit us on the internet at **www.neopostinc.com**
